ACADEMY

1. Introduction

This application note contains tables specifying the details of connections that users have attempted between Flash Magic and specific devices for specific oscillator/crystal frequencies.

From time to time we will update this application note with additional tables. If you have any data to share for inclusion in this application note, please Email it to support@esacademy.com.

2. 89LPC9xx Family

4.000 MHz external oscillator/crystal

Keil MCB900 board

Using DTR and RTS to enter ISP mode

T1 (ms)	T2 (ms)	Baud Rate					
		600	1200	1800	2400	4800	7200
600	288	○	○	○	○	○	○
650	312	●	●	●	●	●	○
700	336	●	●	●	●	●	●
800	384	●	●	●	●	●	●
900	432	●	●	●	●	●	●
1000	480	●	●	●	●	●	●
2000	1000	●	●	●	●	●	●

● - reliable ● - intermittent ○ - does not work
